## Gosling Czubak Receives AASHTO Laboratory Accreditation

TRAVERSE CITY, Mich.:

Gosling Czubak Engineering Sciences recently received accreditation for its concrete and aggregate laboratory from AASHTO (the American Association of State Highway and Transportation Officials). Gosling Czubak's lab becomes the only organization within a 150 miles of Traverse City with this accreditation. This designation is considered to be the highest level of laboratory certification available for concrete and aggregate testing laboratories.

The AASHTO laboratory accreditation program assures that Gosling Czubak's lab can produce accurate and repeatable test results using strict industry guidelines. This certification will give Gosling Czubak's clients confidence that the test results that they receive are accurate and reliable.

*Gosling Czubak Engineering Sciences, Inc. is a professional consulting firm providing landscape architecture, engineering, surveying, environmental, and geotechnical services to a large variety of clients. Currently employing a staff of 56, the firm has served public and private clients throughout Michigan since 1957.*
