Dave Gillette Makes Presentation to Michigan Association of Professional Landmen

TRAVERSE CITY, Mich.:

David P. Gillette, P.S. of Gosling Czubak Engineering Sciences, Inc., recently made a presentation about Michigan's Survey Remonumentation Program to the Michigan Association of Professional Landmen (MAPL) at their meeting in Mt. Pleasant.

MAPL is a nonprofit organization of individuals responsible for the acquisition, administration, and disposition of mineral and surface rights for petroleum exploration and production companies.

The presentation discussed the effect that Michigan's Survey Remonumentation Program can have on the position of property lines and easements. This is particularly relevant to professional landmen as they establish mineral well locations and secure easements for oil and natural gas exploration and production. The presentation helped landmen understand the remonumentation program and avoid property leasing and easement location problems.

Dave manages Surveying operations for Gosling Czubak and is a registered professional surveyor.

Gosling Czubak Engineering Sciences, Inc. is a professional consulting firm providing environmental, landscape architecture, engineering, surveying, and geotechnical services to a large variety of clients. Currently employing a staff of more than 50, the firm has served public and private clients throughout Michigan since 1957.
